Robert,

That would be fine. Thanks, Bonnie

Hi Bonnie,

I do not foresee needing another extension to file our 104E response, but I wanted to see if it was possible that we could send you our response on Monday, March 17, electronically, and then send you the originals by mail soon thereafter.

Please let me know if that is a problem, and thanks again for all of your assistance.

Hello Mr. Moormann,

I received your voicemail this afternoon regarding your question regarding the submittal of the lists of chemicals and formulations that Eckart produces. It would be appropriate to list some of the most commonly manufactured products in your response and refer to the website as the total of all of the products manufactured by Eckart. If we have questions regarding this we can easily refer to the website. I hope this answers your question and if not you may call anytime to further discuss this matter.

Thank You,
Bonnie

Robert,

No I do not, but we are asking responses to be with the question and answer present on the response, if possible. We are not picky about how the responses are given and would even accept a handwritten response on a copy of the letter we sent. It does not have to be that formal. In addition, it is also fine to answer questions as not applicable (n/a) if the response is not warranted for the specific question. Thanks,
Bonnie

Bonnie,

Thank you very much for the quick response and extension. Do you happen to have the 104 request in word format that we could use in preparing our response?

Mr. Moormann,

Please consider this email as confirmation of your approval for a 30 day extension. The request for information now does not have to be submitted to EPA until March 16, 2014, however since that date is a Sunday you are free to submit it on Monday March 17, 2014.

Thank you,

Importance: High

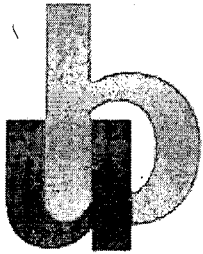

Ms. Hriczko,

I currently work with Bob Karl representing the Eckart America Corporation regarding your recent Section 104 CERCLA information request.

After you provided us with the pictures and field report of the drum in your February 4, 2014 email, we gathered additional information including shipping confirmation, a packaging list, and invoice detailing shipment of the drum to a Pennsylvania company. We are currently trying to obtain delivery confirmation as well. Our hope was that once this information is gathered and provided, it would satisfy your inquiry and request for information and we would not have to complete the extensive and time-consuming Section 104 CERCLA information request. However, after a recent phone conversation with Bill Tucker, he has indicated that the Section 104 request must be completed.

While we are disappointed and hope that you re-evaluate your position, if you and Mr. Tucker believe that the Section 104 CERCLA information request is still needed, we would respectfully request an additional 30 days to complete the request. Please let me know as soon as you can whether such an extension is possible and if any action is needed on our part to receive that extension. Also, if you could please send the Section 104 request in an editable word format to aid completion, it would be greatly appreciated.

Thank you very much for your assistance.
